

This document identifies the portions of the 2011 OIBRS Data Specifications manual that have been revised/updated from the 2009 manual.

- Updated Ohio IBR Enhancements section, page 7
- Updated Requirements for Participation section, page 7
- Added specifications for the collection of Cargo Theft information
 - Layout format, pages 13 and 117
 - Data element level edits, page 135
 - Added to Implied Edits for applicable offenses
- Based on updated FBI guidelines, changed the description for Exceptional Clearance code C from “Extradition Denied” to “In Custody of Other Jurisdiction,” page 16
- New Location Type codes, pages 28-32
- Redesigned pages explaining the Type of Criminal Activity code data element to specifically list each applicable ORC, pages 37-39
- New Property Description codes, pages 46-51
- Updated property description codes that require a zero value, page 52
- The Suspected Drug Type code 29 (Other) was separated from the Harmful Intoxicants listing and placed next to the code 99 (Unknown). Suspected Drug Type code 29 can be used as a general “Other” for any other drug not specifically listed. Page 57
- Updated description for the Utility Field data elements to indicate that those fields should be reported as blank values, pages 64, 102, 123, 129, 139, and 142
- Revised # 2 on page 114 explaining submission specifications.
- Added language to LEOKA ORI field to specify that it must be a valid 9-character ORI number for FBI Uniform Crime Reporting purposes, page 126
- Added language to specifically state that the minimally required segments apply to Group A and B offenses, page 133
- Revised the description for # 21 Property Description to explain how duplicated codes may be entered locally, page 138
- Updated Global Edits on the illogical property description submitted for the offense(s) submitted section, pages 161-163
