

## Subgrantee FVPSA Performance Progress Report Instructions

This information in this section should be collected by each subawardee and compiled by the state into this following section. This report is a compilation of *all domestic violence services regardless of funding source, not just FVPSA funds, used to provide the below services to victims.*

Below instructions align with SurveyMonkey\* questionnaire. Please refer to this as a guide while completing the SurveyMonkey\* questionnaire.

### Subgrantee Cover Page – Questions 1 through 7

### General Program Information – Questions 8 through 11

1. FVPSA grant amount
2. Total domestic violence program budget
3. Number of shelter facilities
4. Number of non-shelter service sites

8. [FVPSA Grant Amount: List total amount of FVPSA funds received within your current fiscal year.]
9. [Total Domestic Violence Program Budget: This is the sum of the total annual budgets for each local domestic violence program at the same point in time. Each local domestic violence program will report its total budget that is used to provide the services to victims included in this report. This number could include **additional funding from other sources** or it **may be the same as the FVPSA grant amount listed in the FVPSA grant amount**. The FVPSA State Administrator then totals each of the entries from the local programs and enters the number here.
- For example, the total program budget would include all funding sources, i.e., FVPSA dollars and state dollars to provide shelter to victims. Grant dollars set aside to provide separate services to sexual assault victims **would not be included** here.
  - In addition, a domestic violence program that is located within a larger social service agency would only include its budget for domestic violence programming.
    - For example, a local domestic violence program that receives \$50,000 in FVPSA funds, \$20,000 from the state for DV services and \$10,000 from a private funder would report \$80,000 as its total domestic violence program budget.]
10. [Number of Shelter Facilities: This is a count of shelter facilities providing immediate housing to victims of domestic violence and their children **managed by** the domestic violence program.
- This normally includes only communal living spaces and other buildings owned or rented by the program.
  - This number **should not** include safe homes, motels or shelter beds provided by other programs.
    - Although this count of shelter facilities only includes property managed by the program, Section B Clients Served in Shelter below asks programs to count the number of clients who were provided shelter whether that be in a building managed by the program or a hotel or safe home.]
11. [Non-Shelter Services Sites: List the total number of service sites (i.e., office locations) where a program provides non- residential services.
- This may include the coordination of shelter for victims through hotels and safe homes where there is not a shelter facility. This number should be one (1) if the program has a single program site with no shelter facility. If a program maintains satellite locations, they should be counted here, i.e., one main office and two satellite offices should be reported as three (3) sites. ***This is not a count of the number of hotels and safe homes used.***

A manual and instructions from the Documenting Our Work Project are available online at the Outcomes webpage from the National Resource Center on Domestic Violence at <http://nrcdv.org/FVPSAOutcomes>. There are **two mandated questions** that must be asked of clients.

Because of the services I received, I feel:

1. I know more about community resources (yes or no).
  - I know more about community resources (Resource Outcome).
2. I know more ways to plan for my safety (yes or no).
  - I know more ways to plan for my safety (Safety Outcome).

2. Outcome information may be collected for each service – shelter, support services and advocacy, counseling and support group. However, at a minimum, FVPSA requests outcome information on shelter services from programs that provide shelter services.

- a. For each service, count the number of surveys completed and the number of yes responses to each question.
  - i. It is expected that the number of surveys completed would be the same for each, but there may be instances when it differs, e.g., a client doesn't answer one of the questions

OCJS staff will contact you only if there are additional questions regarding your submission.
